

**Formagrind
Precision Engineering**

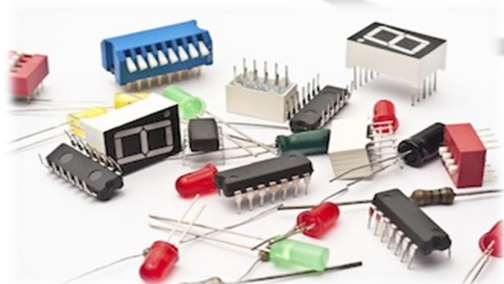

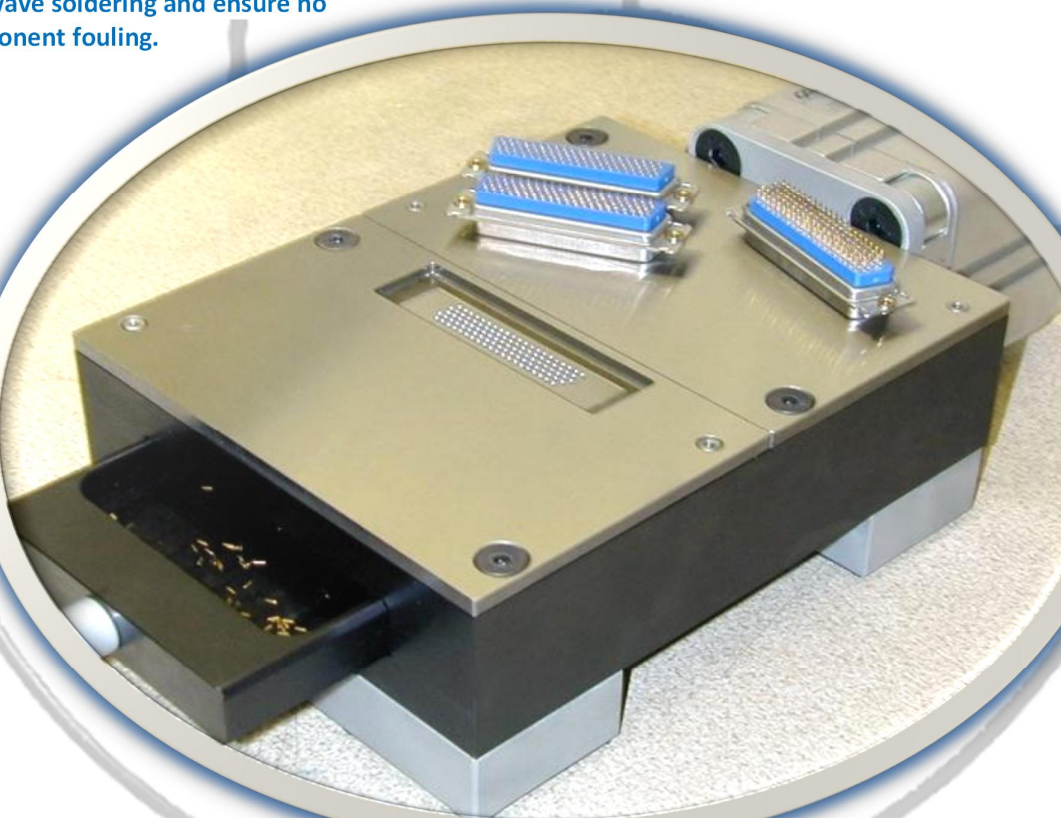

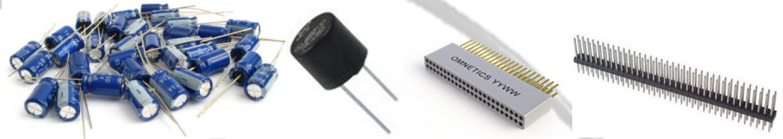

This year marks our 30th Anniversary.
Established in 1983, we have been serving the
world's most demanding industries for the last 30
years.

Versatile Pneumatic Component Cropping Tool

Interchangeable top plates can be made to accommodate any component.

Speed up manufacturing efficiencies with our simple to use tool for cropping leads. The process takes seconds; precious time saved compared to conventional methods.

Crop all components prior to insertion and wave soldering and ensure no component fouling.
